

**Shannon Baxter-Clemmons, Ph.D., Hydrogen and Alternative Energy
Advisory, California Environmental Protection Agency**

Shannon Baxter-Clemmons, Ph.D. is presently employed as the Hydrogen and Alternative Energy Advisor to Secretary Terry Tamminen at the California Environmental Protection Agency. She is presently charged with directing the creation of the California Hydrogen Blueprint Plan called for in Executive Order S-7-04 that outlines Governor Schwarzenegger's vision for hydrogen in California.

Shannon was previously at the California Air Resources Board in the Chairman's Office of Science and Advanced Technology. During which time she served as ARB's representative on the California Fuel Cell Partnership's Working Group for 4 years. Before coming to California she worked as the Director of Special Projects at Fuel Cells 2000 and was awarded research appointments at E. I. Du Pont de Nemours, WESTVACO, and Argonne National Laboratory.

Shannon received her Ph.D. in chemical engineering from the University of South Carolina in 1999. Her graduate work emphasized applying electrochemical techniques to technical issues affecting the environment, namely fuel cells as a source of clean power and electrolyzing hazardous waste streams.
